

Pelikan 

Souverän® 600 Vibrant Orange

180
YEARS OF
PASSION

**SPECIAL
EDITION**

This new and colorful series reflects the beautiful color transition as seen in autumn. The bright acrylic material used for this series had to undergo several production steps to more accurately capture and re-create the range of bright foliage colors. The interesting color nuances from light-transparent to intense orange characterize this series and make the writing instruments nearly gleam. The shiny gold rings and the 14 carat gold nib which is partly covered with rhodium harmonize and further enhance the warm color shades of this series. All fountain pens feature the patented differential piston system and are offered in EF, F, M and B. In addition a ball pen with twist mechanism is also available.

This series is delivered in a practical folding box. An additional gift box can be ordered separately to make this series a colorful gift option. The Special Edition series 600 Vibrant Orange will be available starting November 2018.

We also suggest ordering Edelstein® Ink Mandarin to enhance every written communication.
